INFORMATION DISCLOSURE STATEMENT

Mail Stop Amendment
Assistant Commissioner for Patents
P.O. Box 1450
Alexandria VA 22313-1450

Sir:

Earlier today, the undersigned attorney filed a three-part Electronic Information Disclosure Statement in connection with the above application. Since the attorney has recently experienced problems in several applications in which a multiple-part Electronic Information Disclosure Statement has been filed (in that none or less than all parts of the Electronic Information Disclosure Statement have reached the file), paper copies of the three parts of the Electronic Information Disclosure Statement, including the Acknowledgement Receipts showing them to have been received by the Office, are enclosed, and the Examiner is respectfully requested to check that all three parts do reach the electronic file wrapper.

The applicant is now filing this paper Information Disclosure Statement to make of record foreign patents and applications and non-patent references. The references which it is desired to make of record are listed on the accompanying Form PTO-1449 and copies are enclosed.

All of the references filed herewith are in the English language or an English-language Abstract or translation is provided, so that, pursuant to 37 CFR 1.98(a)(3), no statement of the relevance of each reference is required.

The Examiner is respectfully asked to note that there is an International Application PCT/US2003/027257 (Publication No. WO 2004/023202A1) corresponding to this application, and a copy of the published Search Report portion of WO 2004/023202A1, is being filed herewith. All prior art references in this International Search Report are of course included in the present Information Disclosure Statement, except that JP 2001290178 has been substituted by the corresponding US 6636186; cf. the last page of the Search Report.

The Examiner is respectfully asked to note that, for the convenience of both the Examiner and the undersigned attorney, certain prior art documents mentioned in the application and the International Search Report, have been replaced by their US equivalents or other convenient equivalents, as follows:
